ULRICEHAMN 2021-07-05

“In a time where we mostly meet over screens, it feels wonderful to open up the doors to an inspiration room with several colleagues in the industry”, says Gotessons’ Marketing Director at Gotessons Design Group Jessica Carlstein.

Continuing to conduct business and communicate via screens is a fact for Gotessons. At the same time, it’s a fantastic opportunity to offer a place where architects and customers can experience their products in a tactile and of course - safe - manner. You can find them at the central address Kyrkogatan 20-22 i Göteborg together with their industry colleagues Ludwig Svensson, Englund-Gruppen, David design and A.M. Acoustics.

Together with textiles and curtains from Ludwig Svenssons’ range and beautiful floors and soft carpets from Englund-Gruppen, Gotessons, A.M. Acoustics and David design can offer a holistic solution for the creative room.
